Batch Size	Maximum 5 Students per Batch (Personalized Learning)

Choose Your DevOps Learning Path

We offer three comprehensive levels designed to take you from beginner to expert. Each level builds on the previous one, ensuring a solid foundation and progressive skill development.

Level	Course Type	Duration	Investment	Best For
L1	Basic + Core DevOps	20 Hours (1 Month)	₹15,000	Complete beginners starting DevOps from scratch
L2	Advanced DevOps Engineer	50 Hours (2 Months)	₹35,000	Students preparing for DevOps jobs with placement assistance
L3	Professional DevOps Mastery	100 Hours (4 Months)	₹60,000	Working professionals seeking complete mastery

Detailed Course Breakdown

Level 1: Basic & Core DevOps Foundation

📌 **Duration: 20 Hours (1 Month) | Investment: ₹15,000**

Perfect for complete beginners with no prior IT experience. Build a rock-solid foundation in DevOps fundamentals with extensive hands-on labs.

What You'll Learn:

- Linux Administration & Shell Scripting Mastery
- Git & GitHub Version Control Best Practices
- Docker Fundamentals & Containerization
- Introduction to CI/CD Pipelines
- Basic Networking Concepts for DevOps
- Real-world Projects & Labs

Level 2: Complete Job-Oriented DevOps

📌 **Duration: 50 Hours (2 Months) | Investment: ₹35,000**

Industry-ready training covering everything from L1 plus advanced cloud & automation tools. Includes placement assistance, resume building, and interview preparation.

What You'll Master:

- All Level 1 Topics (Advanced Implementation)
- Kubernetes & Container Orchestration at Scale
- AWS Cloud Services (EC2, S3, RDS, VPC, IAM, Lambda)
- Terraform & Infrastructure as Code
- Jenkins & GitHub Actions for CI/CD Automation
- Configuration Management with Ansible
- Monitoring & Logging (Prometheus, Grafana, ELK Stack)
- 5+ Real-World Mini Projects & Portfolio Development
- AWS/Azure Cloud Certification Preparation
- Resume Building & Mock Interview Sessions

Level 3: Professional DevOps Mastery

📌 **Duration: 100 Hours (4 Months) | Investment: ₹60,000**

Elite-level training for working professionals targeting senior roles. Master production-grade deployments, system design, and enterprise-scale DevOps architectures.

Expert-Level Curriculum:

- All Level 1 + Level 2 Topics (Expert Implementation)
- Advanced Kubernetes (EKS, AKS, GKE, Helm, ArgoCD)
- Multi-Cloud Architecture (AWS + Azure + GCP)
- Advanced Terraform (Modules, State Management, Enterprise Patterns)
- Microservices Architecture & Service Mesh (Istio, Linkerd)
- DevSecOps & Security Best Practices (Vault, SAST, DAST)
- Site Reliability Engineering (SRE) Principles & Practices
- Production Incident Management & On-Call Strategies
- Cloud Cost Optimization & FinOps Implementation
- GitOps & Cloud-Native Architecture Patterns
- Enterprise Cloud Governance & Compliance
- Capstone Project: Complete E-Commerce Platform Deployment
- Interview Mastery for 12-18+ LPA Senior Roles
